# BRIDGING THE **GAP** BETWEEN ACADEMIA & THE IT INDUSTRY

## Empowering the youths to get Jobs in the IT Sector

Even after having a degree in computer science or engineering, youths don't have enough knowledge about programming languages. They failed to get a job in the IT sector.

**WEBKRIDA** empowers such youths.

**WEBKRIDA** has an excellent track record for helping youths to learn to code in the most popular programming languages.

Each youth trained by **WEBKRIDA** has got desired jobs in the IT sector.

# FEATURES

## Job Oriented Coaching

Empower youths with the industry demanded technologies, skills and tricks that enable them to find jobs in highly competitive IT industry after completing the training.

## Personal Attention

Treat every student as an individual. Design and develop training material and examples as per individual's capacity.

## Learn with Live Examples

Teach to develop programming logic and problem solving skills with multiple real time examples.

## Focus on Programming Fundamentals

Beginners must first understand the basic fundamentals of programming. Fundamentals are rarely changed and almost identical for all programming - languages.

## Make you Self Learner and Future Ready

Today's rapidly changing and competitive world, self-learner is must required and highly recommended quality
