## About Myself:

- Self-learner.
- Since December 2022 working on various Web technologies like HTML / HTML5, CSS, Bootstrap 4/5, Media queries, JavaScript, ES6, jQuery.
- Having good experience to Design, develop, and maintain web applications / Responsive pages / Email templates by using web technologies.
- Having knowledge to integrate third-party APIs to fetch JSON data and display into web applications.
- Having good knowledge of Functional JavaScript (advanced JavaScript) features and methods like Map, Filter and Reduce. By using these methods can filter JSON data on various conditions using JavaScript / jQuery.
- By using jQuery's load and ajax method implement AJAX functionality wherever required in application.
- Having knowledge to develop web applications with server-side development framework like Node.js.
- Ability to write clean and maintainable code.
- Keep learning and stay up-to-date with the latest trends in web development.
- Currently learning to use EJS templates in Node.js framework using language Express.js.
- In near future planning to learn React.js.
